

## How it works

1

# clean-out

Bring a maximum of 10 clean and well-preserved items of clothing: clothes, shoes and accessories. Please only bring clothes that other people will find appealing.

2

# walk-in

Leave your clothes at the reception desk, they will be checked and hung up by our volunteers\*. Pay 5 CHF entrance fee.

3

# dress-up

Nothing stands in the way of your search for your favourite new clothes. A maximum of 10 items of clothing may be taken home.

for all size, age and gender 

## Become a Walk-in Closet benefactor

Supporting Walk-in Closet Switzerland is easy. We are convinced that we can only be successful if the community is actively involved and engaged with us. Together we are committed to a more sustainable fashion world. As a benefactor you can visit all of our clothing swaps for free and receive further benefits:

---

### Fan: 50 CHF

- Invitation to the annual benefactors' event

---

### Supporter\*: 250 CHF

- Invitations to workshops on sustainable fashion, zero waste and social sustainability
- Invitation to the annual benefactors' event

---

### Sponsor\*: 1000 CHF

- Invitations to workshops on sustainable fashion, zero waste and social sustainability
- Invitation to the annual benefactors' event as guest of honour
- Official thanks in the newsletter and annual report

---

### Sustainable Business: open to discussion

- Financial support for the projects of Walk-in Closet Switzerland
- Workshops on „sustainable clothing consumption”
  - Official thanks in the newsletter and annual report

swap not shop

# Our Vision

Our vision is big. We envisage a world in which the textile trade becomes socially and environmentally sustainable. This means that workers in the clothing industry are paid fairly, work reasonable and fair hours in safe environments. Further, we encourage the safeguard of the world's resources in clothing production. Our vision can only become real with a change in our own consumption and by bringing pressure for social, environmental and sustainable change to bear on the leading producers of fast fashion.

# Our Association

Walk-in Closet Switzerland focuses on clothing consumption and its global consequences. The objective of Walk-in Closet Switzerland is to provide a sustainable link in the fashion chain offering an exciting alternative experience and opportunity to enjoy fashion. We look at our attitude towards consumption. At various locations in Switzerland we offer an alternative to normal outlets - to swap, not shop. Raising awareness is our priority.

We currently work with Public Eye and other non-profit organisations, whilst we host workshops focused on sustainable clothing consumption with the goal of encouraging others to reflect on their buying habits. New projects are in the planning: online clothing swaps, school workshops and Swapshops. Our aim is to motivate and engage as many people as possible to become more conscious about their own clothing consumption. To this end we work together with a network of volunteers for a more sustainable fashion world.

# Join us

As a **local organiser** you are an active member of Walk-in Closet Switzerland. You and your team are responsible for delivering local events - in conjunction with the local authorities - and will receive training and support to help manage your first event. We are excited to share our experiences and knowledge with your team so the whole Walk-in Closet community can be successful.

**Volunteers** are invited to assist at local events with many jobs varying depending on location and demand for staffing. As a thank you, we offer a dinner event together or a small thank you gift for all participants who donate their time, it is a win-win for everyone.

From time to time we also seek voluntary support in various areas independent of our events, so please get in touch!
